## Maximize Ventilation with Multi-Point Locking Casement Window Replacement

### **What is a casement window**

A casement window is a type of window that is hinged on one side and opens outward, typically using a crank or handle. Casement windows are hinged on the side and open outward to the left or right, offering unobstructed views and maximum ventilation. A convenient handle enables simple operation, making the Casement window a perfect choice for hard-to-reach areas like above a kitchen sink. Elevate your home with the contemporary appearance of a casement window. Their weather-resistant design provides superior protection against wind and rain. Casement windows are popular in residential and commercial buildings for their functionality, aesthetic appeal, and energy efficiency.

### **What are the advantages of casement windows?**

1. Multi-point locking system tightly seals sash for excellent weather resistance and energy efficiency.
2. Convenient access to open and close from hard-to-reach places.
3. Easy open nesting crank handle that won't interfere with window treatments.
4. Durable stainless-steel operating system.
5. Interior screen is easily removed from inside the home.

### **Features:**

1. Design: They are often tall and narrow, providing a clear view and maximizing ventilation.
2. Versatile Opening: They can be opened fully to allow maximum ventilation, making them ideal for fresh air circulation.
3. Operation: Casement windows open outward like a door, allowing for better airflow compared to sliding windows.
4. Variety of Styles: Available in various styles, they can match different architectural aesthetics.
5. Security Features: Many casement windows come with multi-point locking systems, enhancing security.

### **Technical Data:**

1. Double Glaze Double Clear Tempered Glass
2. U Factor = 0.28-0.38 Size depending.
3. Modular swivel-tilt mounting system with concealed hinges
4. Simple and intuitive operation
5. The 3.4mm wall thickness guarantees greater stability and durability of the window and increased protection against noise and temperature changes.
