

Maximize Ventilation with Multi-Point Locking Casement Window Replacement

Our Product Introduction

for more products please visit us on aluminiumwindowsdoor.com

Basic Information

- Place of Origin: China
- Brand Name: Eloyd
- Certification: CE
- Model Number: 125 serie Casement Window
- Minimum Order Quantity: 2
- Price: USD115/
- Packaging Details: EPE Foam wrapped
- Delivery Time: 25-30days
- Payment Terms: L/C, T/T, Western Union, PayPal
- Supply Ability: 10000

Product Specification

- Weather Resistance: Waterproof
- Certifications: CE
- Glass: 5+27A+5mm Double Clear Tempered Glass
- Material: 3.4mm Thick Aluminium
- Design: According To Confirmed Drawing
- Accessory: Fly Net / Fly Curtain / High Downtrack (For Water-proof)
- Package: EPE Foam Wrapped
- Installation Method: Full Frame Replacement
- Highlight: **Maximize Ventilation Casement Window Replacement**

New Soundproof Aluminium Alloy Frame Casement Windows Replacement

What is a casement window

Casement Window: A window that is hinged on one side and opens outward, often operated by a crank.

Hinge: The mechanical device that allows the window to pivot open and closed.

Crank Handle: A device used to open and close the casement window, typically found at the bottom or side of the frame.

Frame: The structural component that holds the window in place

Sill: The bottom horizontal part of the window frame, often sloped to allow water drainage.

What are the advantages of casement windows?

1. They open fully outward, allowing maximum airflow and natural ventilation.
2. When closed, they create a tight seal, reducing drafts and improving thermal insulation.
3. Large glass panes provide clear sightlines without the obstruction of sashes or frames.
4. The design allows for secure locking mechanisms, which can improve safety.
5. Their clean lines and modern look can enhance the overall appearance of a home.

Features:

1. Design: They are often tall and narrow, providing a clear view and maximizing ventilation.
2. Versatile Opening: They can be opened fully to allow maximum ventilation, making them ideal for fresh air circulation.
3. Operation: Casement windows open outward like a door, allowing for better airflow compared to sliding windows.
4. Variety of Styles: Available in various styles, they can match different architectural aesthetics.
5. Security Features: Many casement windows come with multi-point locking systems, enhancing security.

Technical Data:

1. Double Glaze Double Clear Tempered Glass
2. U Factor = 0.28-0.38 Size depending.
3. Modular swivel-tilt mounting system with concealed hinges
4. Simple and intuitive operation
5. The 3.4mm wall thickness guarantees greater stability and durability of the window and increased protection against noise and temperature changes.

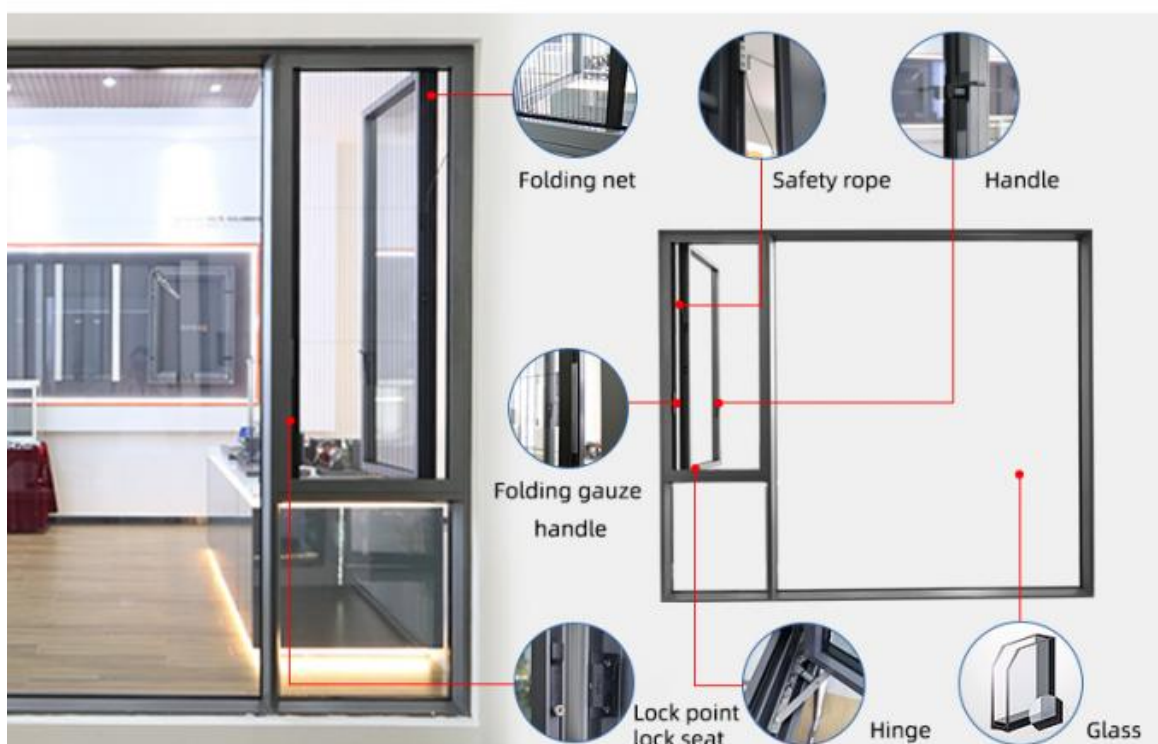

Product Parameters:

SERIES	125 Extremely narrow Window
BRAND	Eloyd
PROFILE	6063# T5 aluminum alloy profiles
THICKNESS	3.4mm aluminium thickness
GLASS	5mm+27A+5mm Double Tempered Glass
HARDWARE	Gingle Handle
SURFACE TREATMENT	Powder Coating, Anodized
