# Energy Efficient Hurricane Casement Windows With Net Replacement

## Technical Data:

1. Double Glaze Clear Tempered Glass
2. U Factor = 0.28-0.38 Size depending.
3. Widths typically range from 24" to 48", and heights from 36" to 72".
4. alues range from 0.25 to 0.60, indicating solar heat gain performance.
5. The 2.0mm wall thickness guarantees greater stability and durability of the window and increased protection against noise and temperature changes.

## What is a casement window

A casement window is a type of window that is hinged on one side and opens outward, typically using a crank or handle. Casement windows are hinged on the side and open outward to the left or right, offering unobstructed views and maximum ventilation. A convenient handle enables simple operation, making the Casement window a perfect choice for hard-to-reach areas like above a kitchen sink. Elevate your home with the contemporary appearance of a casement window. Their weather-resistant design provides superior protection against wind and rain. Casement windows are popular in residential and commercial buildings for their functionality, aesthetic appeal, and energy efficiency.

## Features:

1. Design: They are often tall and narrow, providing a clear view and maximizing ventilation.
2. Versatile Opening: They can be opened fully to allow maximum ventilation, making them ideal for fresh air circulation.
3. Operation: Casement windows open outward like a door, allowing for better airflow compared to sliding windows.
4. Variety of Styles: Available in various styles, they can match different architectural aesthetics.
5. Security Features: Many casement windows come with multi-point locking systems, enhancing security.

## What are the advantages of casement windows?

1. The design allows for secure locking mechanisms, which can improve safety.
2. Many modern casement windows are designed with durable materials that require minimal upkeep.
3. Their clean lines and modern look can enhance the overall appearance of a home.
4. Typically operated with a crank, making them easy to open and close, even in hard-to-reach places.
5. Aluminum casement windows are strong, lightweight, and resistant to corrosion, making them suitable for coastal or high-humidity areas.

## Product Parameters:

SERIES	110 serie Casement Window
BRAND	Eloyd
PROFILE	6063# T5 aluminum alloy profiles
THICKNESS	2.0mm aluminium thickness
GLASS	5mm+20A+5mm Double Tempered Glass
