Product Description

Apartment Hotel Double Glazed Tempered Glass Casement Windows With Screen Replacement

Customization: We offer opportunities for a fully customizable design to match your personal taste. If you find that the size and design you want are not listed on our website, feel free to contact us.

Notice: Due to hand-forged craftsmanship, every piece of custom-made product may look different from that picture shown. Small differences in the design and finish may occur. Please refer to the final CAD drawing. We do not consider product variances as defects.

Text Us If Any Questions

Technical Data:

1. Single, Double, Triple Glazing
2. U Factor = 0.28-0.38 Size depending.
3. aluminum often features thermal breaks for insulation.
4. Low-E Coatings Available for enhanced energy efficiency.
5. The 2.0mm wall thickness guarantees greater stability and durability of the window

Features:

1. Design: They are often tall and narrow, providing a clear view and maximizing ventilation.
2. Versatile Opening: They can be opened fully to allow maximum ventilation, making them ideal for fresh air circulation.
3. Operation: Casement windows open outward like a door, allowing for better airflow compared to sliding windows.
4. Variety of Styles: Available in various styles, they can match different architectural aesthetics.
5. Security Features: Many casement windows come with multi-point locking systems, enhancing security.

What is a casement window

A casement window is a type of window that is hinged on one side and opens outward, typically using a crank or handle. Casement windows are hinged on the side and open outward to the left or right, offering unobstructed views and maximum ventilation. A convenient handle enables simple operation, making the Casement window a perfect choice for hard-to-reach areas like above a kitchen sink. Elevate your home with the contemporary appearance of a casement window. Their weather-resistant design provides superior protection against wind and rain. Casement windows are popular in residential and commercial buildings for their functionality, aesthetic appeal, and energy efficiency.
