Features:

1. Design: They are often tall and narrow, providing a clear view and maximizing ventilation.
2. Versatile Opening: They can be opened fully to allow maximum ventilation, making them ideal for fresh air circulation.
3. Operation: Casement windows open outward like a door, allowing for better airflow compared to sliding windows.
4. Variety of Styles: Available in various styles, they can match different architectural aesthetics.
5. Security Features: Many casement windows come with multi-point locking systems, enhancing security.

Why choose Eloyd Windows and Doors ?

1.Raw aluminum profiles

Corrosion resistance, good oxidation resistance, higher strength

2.Insulated tempered glass

3C quality certified automotive grade glass, strong pressure resistance, not easy to explode

3.German RUNAS hardware

Anti-stretching and anti-aging, good sealing and overlapping effect, long-lasting and stable performance

What is a casement window

A casement window is a type of window that is hinged on one side and opens outward, typically using a crank or handle. Casement windows are hinged on the side and open outward to the left or right, offering unobstructed views and maximum ventilation. A convenient handle enables simple operation, making the Casement window a perfect choice for hard-to-reach areas like above a kitchen sink. Elevate your home with the contemporary appearance of a casement window. Their weather-resistant design provides superior protection against wind and rain. Casement windows are popular in residential and commercial buildings for their functionality, aesthetic appeal, and energy efficiency.
