Modern Panoramic Extra Slim Frame Aluminium Tilt And Turn Windows

Features:

1. Tilt Function:Opens from the top for controlled ventilation
2. Turn Function:Swings open from the side for maximum airflow and easy access for cleaning
3. Corrosion Resistance: Aluminum frames resist rust and corrosion
4. Strength:Lightweight yet strong, allowing for larger window sizes without compromising structural integrity.
5. Thermal Break Technology:Reduces heat transfer, improving insulation and energy performance.

Technical Data:

1. Material: 6063# T5 High-quality aluminum
2. U Factor = 0.28-0.38 Size depending.
3. Standard Sizes:Widths typically range from 24" to 60" Heights typically range from 36" to 72"
4. Glass Types:Double or triple glazing for improved insulation.Low-E glass options available for enhanced energy efficiency.
5. Opening Mechanism:Tilt operation for ventilation (inward from the top).

What is a Tilt And Turn Window?

Tilt and Turn Windows are a versatile window style that offers two distinct opening modes: tilting inwards from the top for ventilation and swinging open like a door from the side.Aluminum tilt and turn windows are ideal for both residential and commercial buildings, making them a popular choice for modern architecture. They work well in high-rise apartments, office buildings, and homes where both function and style are desired.Aluminum tilt and turn windows blend modern design with functionality, offering a secure, energy-efficient, and aesthetically pleasing solution for various applications. Their dual-opening capabilities and durable construction make them an excellent choice for contemporary living and working spaces.

What are the advantages of Tilt And Turn Window?

1. The ability to tilt for controlled ventilation or fully turn open allows for flexible airflow management
2. This feature makes cleaning the exterior glass easy from inside the building
3. Provides improved security with multiple locking points
4. Many models feature thermal breaks and low-E glass options
5. Since the windows open inwards, they don't require additional space outside
