Basic Information

- Place of Origin: China
- Brand Name: Loyd
- Certification: CE
- Model Number: 110 Tilt And Turn Window
- Minimum Order Quantity: 2
- Price: USD78/
- Packaging Details: EPE Foam wrapped
- Delivery Time: 25-30days
- Payment Terms: L/C, T/T, Western Union, PayPal
- Supply Ability: 10000

Product Specification

- Durability: Long-lasting
- Sound Insulation: High
- Glass: Glass: 5+27A+5mm Double Clear Tempered Glass
- Material: 2.0mm Aluminium Thickness
- Design: According To Confirmed Drawing
- Accessory: Fly Net / Fly Curtain / High Dwntrack (For Water-proof)
- Package: EPE Foam Wrapped
- Installation Method: Full Frame Replacement
- Warranty: 10 Years
- Highlight: 1500x1500 aluminium tilt and turn window, aluminium tilt and turn window skylights, 1500x1500 aluminium window skylights

Consistent Design And Superior Insulation Glass Tilt And Turn Windows

What is a Tilt And Turn Window?

Eloyd is proud to offer Authentic European Tilt & Turn Windows, featuring dual-action, European tilt-and-turn hardware. This high-performance hardware enables the window to tilt inward at the top for maximum ventilation. It also allows the window to be opened inward a full 180 degrees for easy cleaning and maximum egress. Modern aluminum windows are suitable for many types of buildings. Whether it's a historic building, detached private residence, office building or a multi-family house, stylish window profiles can achieve consistency of design between the building's exterior and interior walls. Thankful to the highest level of German technology, engineers developed a multi-chamber window profile. The new design has a major impact on technical properties such as thermal and acoustical insulation.

Technical Data:

1. Large central reinforcing chamber for optimum static performance.
2. Versatile and simple adjustment
3. Heat transfer coefficient for the reference window* $U_w = 1,1 \text{ W/m}^2 \cdot \text{K}$ (for the glass-pane $U_g = 0,7 \text{ W/m}^2 \cdot \text{K}$)
4. Certified burglar resistance for effective protection!
5. 110 mm height of frame and sash allows for glazing of large surfaces and better lighting of the rooms

What are the advantages of Tilt And Turn Window?

1. Made from high-quality aluminum, these windows resist corrosion and are built to withstand various weather conditions
2. The sleek lines and various color options enhance the visual appeal of any building
3. Available in different sizes and finishes
4. The design contributes to good sound insulation
5. The inward opening does not require additional space outside, making them ideal for areas with limited clearance.

Features:

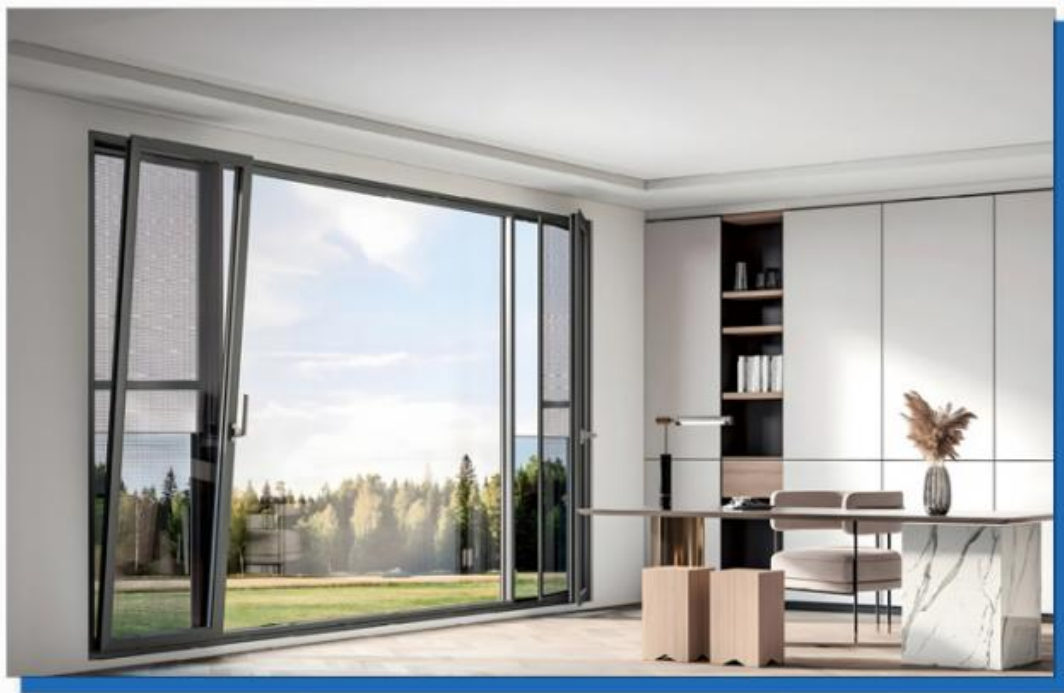

1. Provides good sound insulation, creating a quieter indoor environment.
2. Designed to withstand harsh weather conditions, ensuring longevity.
3. allowing fresh air while maintaining security.
4. allowing for larger window sizes without compromising structural integrity..
5. improving insulation and energy performance.

Product Parameters:

SERIES	110 Tilt And Turn Window
BRAND	Eloyd
PROFILE	6063# T5 aluminum alloy profiles
THICKNESS	2.0mm aluminium thickness
GLASS	Glass:5+27A+5mm Double Clear Tempered Glass
HARDWARE	VBH Lock & Handle
SURFACE TREATMENT	Powder Coating, Anodized

98 double inner casement window series
