America Standard Large CE Certificate Thermal Break Aluminum Frame Glass Sliding Doors

What is a sliding Window?

Large Viewing Area and Maximum Daylight. Brighten your home with a sliding patio door without sacrificing space. These patio doors are an excellent solution to gain access to your outdoor living area and illuminate your home with natural light. Made in aviation grade aluminum. Sliding patio doors open horizontally with at least one operable panel making them an excellent space saver. Large glass panels let more natural light into your home and can seamlessly extend your interior living spaces with an unobstructed view of the outdoors. The elegance and functionality of sliding glass doors contribute to the overall modern appeal of your living spaces.

Features:

1. Made from high-quality aluminum, providing resistance to rust, corrosion
2. Engineered for longevity, requiring minimal maintenance over time.
3. Equipped with durable rollers that ensure effortless opening and closing.
4. Available in configurations that allow for one or multiple panels to slide.
5. Many models include thermal breaks to improve insulation and reduce energy loss.

Technical Data:

1. 6063-T5 aviation grade aluminum
2. Broken bridge aluminum alloy profile
3. Sound insulation and heat preservation
4. Waterproof and hurricane resistance
5. 3" width frame structure

Why Choose aluminum Sliding door?

1. Aluminum is highly resistant to rust, corrosion, and fading, making it ideal for various climates.
2. aluminum sliding doors typically require minimal maintenance and last for many years.
3. The smooth surface of aluminum allows for easy cleaning with basic soap and water.
4. Powder-coated finishes are durable and resist chipping
5. Many aluminum sliding doors feature thermal breaks that enhance insulation and reduce heat transfer
6. Available with energy-efficient glass
7. Sleek and contemporary lines that enhance the visual appeal of any space
8. Available in multiple colors and finishes to match architectural styles and personal preferences.
