Product Description

Modern 3 Panel Sound Insulation Proof Aluminum Glass Sliding Doors

FAQ

Q1: Are you a factory ?

A: Yes, Our factory covers an area of 30000 and has 500+ employees.

Q2: What is your main product?

A: We can supply the window system (including profile, hardware, accessories, glass) as well as the finished products ready for installation. Q3: How can I know your price?

A: The price is based on buyer's specific requirement, so please provide below information to help us quote exact price to you.

(1) Shop drawing / window schedule to show the window dimensions, quantity and type;

(2) Frame Color Type of glass and thickness (single or double or laminated or others) and color (clear, tinted, reflective, Low-E or others, with Argon or without).

Q4: What is your delivery time?

A: 25-35 days after deposit and drawing confirmed

Q5: What is your warranty ? What do we do in case of problems?

A: 10 years quality warranty is provided, including frame unfading nor peel-off, hardware and accessories working properly under correct operation.

Q6: What kind of service will you provide?

A: We are able to provide online engineering and supervision services to guide the installation of our windows and doors.

Why Choose aluminum Sliding door?

Connecting your indoor and outdoor spaces with a sliding patio door from ELOYD has several benefits: Sliding patio doors provide access to the outside, increasing natural light and fresh air. They don't require additional space for operation, making them an excellent solution to save space in smaller rooms. Our sliding patio doors include a screen, so you can leave your door open and enjoy a comfortable breeze without worrying about insects getting inside. ELOYD offers a broad selection of aluminum sliding patio doors that have many advantages over other materials: The durability of aluminum makes it a long-lasting, virtually maintenance-free and weather-resistant option.

What is a sliding Window?

Large Viewing Area and Maximum Daylight. Brighten your home with a sliding patio door without sacrificing space. These patio doors are an excellent solution to gain access to your outdoor living area and illuminate your home with natural light. Made in aviation grade aluminum. Sliding patio doors open horizontally with at least one operable panel making them an excellent space saver. Large glass panels let more natural light into your home and can seamlessly extend your interior living spaces with an unobstructed view of the outdoors. The elegance and functionality of sliding glass doors contribute to the overall modern appeal of your living spaces.

Features:

1. Made from high-quality aluminum, providing resistance to rust, corrosion
2. Engineered for longevity, requiring minimal maintenance over time.
3. Equipped with durable rollers that ensure effortless opening and closing.
4. Available in configurations that allow for one or multiple panels to slide.
5. Many models include thermal breaks to improve insulation and reduce energy loss.
