Why choose Eloyd Windows and Doors ?

Every space is unique. Our custom doors and windows are crafted to fit your specific dimensions, architectural style, and personal preferences. Choose from a wide range of designs, colors, and finishes to create a look that complements your property. We believe in delivering excellence. Our skilled artisans use high-quality materials and advanced techniques to ensure that your doors and windows not only look beautiful but are built to last. Save on energy costs with our custom solutions. Designed with insulation and energy-efficient glazing options, our doors and windows help keep your home comfortable year-round, reducing your carbon footprint.

What is a aluminum folding door ?

aluminum bi-fold doors are a great way to open space in your kitchen, office, or living room. The easy folding doors give you a fast transition to any room or environment. The thermal break glass and frame make the bi-folds a perfect choice for upgrading your house and is an energy-efficient and cost-effective solution for most openings. Argon gas and True Seal weatherstripping keep your home warm in the winter and cool in the summer. The powder coating finish on the aluminum frame enhances its durability against all weather conditions. The tri-lock locking mechanism of folding doors has been designed with added security. The German multi-lock covers each panel on the sliding track which turns your doors into a solid thermal break wall. An optional bug screen is available too.

FAQ

Q1: Are aluminum folding doors energy-efficient?

Most models feature thermal breaks and can be equipped with energy-efficient glazing options, such as double or triple glazing and Low-E coatings, to improve thermal performance.

Q2: What is the typical lifespan of aluminum folding doors?

With proper maintenance, aluminum folding doors can last for 30 years or more, depending on usage and environmental conditions.

Q3: Do aluminum folding doors require special installation?

It's recommended to have them professionally installed to ensure proper alignment and operation.

Q4: Can aluminum folding doors be installed in existing openings?

Yes, they can be retrofitted into existing openings, but structural modifications may be required depending on the size and configuration.

Q5: What styles of aluminum folding doors are available?

They come in various styles, including different panel configurations (e.g., two-panel, three-panel, or multi-panel setups) and finishes that can match your home's decor.
