3. Air Infiltration Rating: Typically rated at 0.1 to 0.3 CFM per square foot
4. Weatherstripping: High-quality materials used for enhanced sealing against drafts and moisture
5. Multi-point locking systems for improved security

Why choose Eloyd Windows and Doors ?

Eloyd doors and Windows Only the best in the business

Eloyd Doors and Windows was founded in 2016 and has many years of experience in door and window manufacturing. Is a independent research and development, production, sales in one of the large high-end German doors and Windows enterprise. The main products are aluminum alloy doors and Windows, including heavy sliding doors, luxury folding doors, broken bridge casement Windows, silent sliding Windows, European sun rooms, pavilions and grape frames.

Track design:

1. Water drainage in bottom track
2. Concealed drainage
3. Adopt imported high permeability gauze
4. Embedded in the bottom rail to the fan and the bottom rail seamless connection
5. Bottom track drainage systems are commonly used in sliding and folding door applications, particularly in areas such as glass doors, patio doors, and commercial entrances.

What is a sliding Window?

Aluminum sliding windows offer a combination of durability, low maintenance, energy efficiency, and aesthetic appeal. Their practical design and versatile features make them an excellent choice for both residential and commercial applications. Aluminum sliding windows combine modern design with functionality and energy efficiency. Eloyd focus on each details to supply the best products and service. We add shipping mark and item labels outside of the case for better recognize. And we tie up wood pallets in the container to make sure products will go to you safely.
