Product Description

Product Description:

Our Full Frame Replacement installation method ensures that your new windows will be secured and properly installed. The aluminium frame is designed to withstand the elements, ensuring that your windows will last for years to come. Additionally, our windows come with a Powder Coating or Anodized surface treatment, providing a sleek and modern finish to your home.

Our windows feature 5mm+27A+5mm Double Tempered Glass, which provides excellent insulation against noise and temperature changes. The Gingle Handle hardware ensures a secure and easy-to-use window system.

One of the standout features of our Casement Window Replacement product is the custom-made screens that come with it. The screens are typically made of fine mesh that effectively keeps insects and pests out while allowing air to flow freely. These screens can be custom-made to fit specific window sizes and shapes, ensuring a perfect fit for your aluminium casement, swing, or glass windows. When windows are open, screens allow for maximum airflow without the risk of insects entering the home.

Upgrade your home's appearance and functionality with our Casement Window Replacement product. The aluminium frame, Double Tempered Glass, Gingle Handle hardware, and custom-made screens provide a perfect combination of style and functionality. Don't wait any longer to improve your home's look and feel.
