Product Description

Eloyd customized slide double glass window aluminum sliding glass windows and aluminum windows

PRODUCT PARAMETER

ELOYD

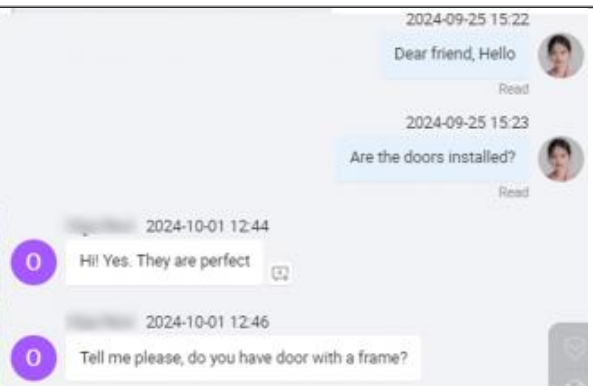

What Makes Eloyd Products One Of The Best Choices For Buildings?

It is our honor that you choose our products. We are the leading enterprise in the door and window industry in China. Our product quality and factory strength have been recognized by customers. We are also the most professional enterprise in China exporting doors and windows to the United States. Our expertise will also ensure that the products you buy are the best in comprehensive cost performance from price to quality to after-sales service. Our expertise is reflected in:

1 / PROVIDE THE PROFESSIONAL DOOR-TO-DOOR SERVICES

Considering that it may be your first time to purchase valuable items in China, our specialized transportation team can take care of everything include customs clearance, documentation, importation, and extra door-to-door services for you, you can just sit at home and wait for your goods to come to your door.

2 / GUARANTEE THE DURABILITY OF PRODUCTS UP TO 16 YEARS WARRANT

In our opinion, quality means never having to compromise. The high-quality aluminum and components that we use allow us without

compromising structural strength. In other words, even with slim frames, we offer a high performing product for you. Our research and development team made sure that you still get unrivaled thermal insulation, high performance, and top-quality hardware on the 10 YEARS WARRANTY. The TPS glazing ensures that no air leakage and fogging issues on products for 25 YEARS WARRANTY.

3 / PROVIDE FREE DESIGN ASSISTANCE TO OPTIMIZE YOUR PLAN & BUDGET

We are very happy and look forward to a long-term partnership with you, as with our other partners in US, where our service and strength in window and door expertise can help our partners save more time and money.

Eloyd has been working for the North American market for a five, we provided the most professional plan and meaningful design with ideal price to meet all our client's highly customized demands. With our own expertise we provide no-cost design development & contract documentation with CAD & BIM drawings, including elevation & details & installation design. Helping clients to accurately control budgets by analyzing the overall plan, including to provide the schematic design to help determine products within cost parameters. Such as use lower cost products in inconspicuous locations to reduce the overall budget: If the direction is not under long time sunlight, do not use Low-E glass; use PVC windows or aluminum windows instead of solid wood windows in unimportant rooms such as toilets or storage rooms.

4/ SAVE YOUR MONEY ON INSTALLATION COSTS

We have several international patents to reduce clients' labor costs, such as our unique flanges and assembly type tubular design, which is different from the other products on the market. What sets us apart among Chinese counterpart is that all our products are equipped with nail fin structures for quick and easy installation. Labor costs during installation may exceed of the window and door price, therefore, our exclusive patent allows users to not only get a significant increase in installation efficiency, but also greatly reduce the labor cost of window and door installation. A cost that may bring you unexpected savings that farexceed the price difference you may care about now.

5 / GUARANTEE 0 DAMAGE PACKAGING , DETAILED INSTRUCTIONS FOR EASY INSTALLATION

We export tens of millions of dollars of windows and doors to the U.S. every year, and we know that improper packaging can cause breakage of the product when it arrives on site, and the biggest loss from this is, I'm afraid, the cost of time, after all, workers on site have requirements of working time and it need to wait for a new shipment to arrive in case of damage occurs to the goods. So, we pack each window individually and in four layers, and finally into (non-fumigated) wooden boxes, and at the same time there will be a lot of shockproof measures in the container, to protect your products . We are very experienced on how to pack and protect our products to ensure them to arrive at the sites in good condition after the long-distance transportation. What the client concerns, we concern most.

6 Layers Packaging

Guarantee No Breakage

1* Layer

Adhesive protective film

2* Layer

Bufer bubble film

3* Layer

Hardboard

4* Layer

Stretchable plastic Wrap

5* Layer

Non-fumigation plywood-crate

6+ Layer

Each layer of the outer packaging will be labeled to guide you on how to install it to avoid delaying the progress due to incorrect installation.

1) Front and Back, Up and Down Will Not Install Reversely;

2) Provide Installation Guidance;

3) Successfully Passed the Verification of the Inspector

6 / SAVE YOUR TIME ON DELIVERY

During the epidemic, it is very difficult to book shipping containers for export (not simply the increasing fees, many exporters cannot book containers on time) which will not only directly affect the normal schedule of your project, but also will cause you a greater increase in costs that were not expected. We are the only "Alibaba Elite" merchant in the window and door industry on this platform, we have priority booking rights and get the best price for the shipping, so we can guarantee that your goods will arrive as scheduled and will save you a lot of money.

7 / HELP YOU ON INSPECTOR'S VERIFICATION

We have many projects in the United States and Saudi Arabia, and we are very familiar with the local building code requirements. Due to the climate characteristics of each city, there are very clear requirements for the thermal insulation performance of windows, so our products have CR certification to ensure that your project can pass the inspection after completion.
