

Aluminum Frame Waterproof Interior Patio Exterior Glass Aluminum Sliding Door

Our Product Introduction

for more products please visit us on aluminiumwindowsdoor.com

Basic Information

- Place of Origin: China
- Brand Name: Eloyd
- Certification: CE
- Model Number: 150 serie sliding door
- Minimum Order Quantity: 2
- Price: USD78/
- Packaging Details: EPE Foam wrapped
- Delivery Time: 25-30days
- Payment Terms: L/C,T/T,Western Union,PayPal
- Supply Ability: 10000

Product Specification

- Opening Direction: Left/Right
- Installation Method: Surface Mount
- Material: 3.0mm/8.0mm Thick Aluminium
- Glass: 5+22A+5mm Double Clear Tempered Glass
- Design: According To Confirmed Drawing
- Drawings: 3D Design Drawings
- PackageMethod: EPE Foam Wrapped
- Hardware: ELOYD
- Stainless Steel: 10 Years

Product Description

Panoramic Aluminum Energy Efficient Double Glass Multi Panel Door Heavy Duty Multi-Panel Sliding Door

Minimalist aesthetics enhance the style of the space

Narrow frame design: Utilizing extremely narrow aluminum frames or invisible frames, it maximizes the proportion of glass, reduces visual obstruction, and naturally integrates indoor and outdoor Spaces, creating a transparent and spacious visual effect.

Modern minimalist style: With simple and smooth lines and no superfluous decoration, it seamlessly blends with various architectural styles (such as modern, industrial, and Nordic), enhancing the overall design sense.

Natural light optimization: The large area of glass design allows sunlight to fully penetrate, reducing the need for artificial lighting while making the interior appear brighter and more spacious.

Heavy-duty structure, combining durability and safety

High-strength materials: Heavy-duty aluminum alloy or tempered glass is selected, which has strong impact resistance and deformation resistance, and can withstand harsh weather conditions (such as strong winds and heavy rain) and frequent use.

Stable frame: Thickened profiles and reinforced structure ensure the stability of the door body, reducing the risk of shaking. It is especially suitable for high-rise buildings or large-span openings.

Safety protection: Equipped with a multi-point lock system, anti-picking design and child safety lock, it enhances anti-theft performance and ensures family safety.

Outstanding performance, adaptable to diverse environments

Strong sealing performance: With multiple sealing strips and a hidden drainage design, it effectively blocks rainwater, dust and noise, enhancing indoor comfort.

Thermal insulation and heat preservation: By pairing with low-emissivity (Low-E) glass or insulating glass, heat transfer is reduced, air conditioning energy consumption is lowered, and energy conservation and environmental protection are achieved.

Wind pressure resistance: The heavy-duty structure can withstand strong winds of over level 12, making it suitable for use in coastal or windy areas.

The sliding is smooth and the operation is convenient

Silent slide rail: High-precision stainless steel slide rails and wear-resistant pulleys are adopted to ensure that the door body can be pushed and pulled smoothly and silently, reducing friction loss.

Strong load-bearing capacity: The heavy-duty slide rail system can support large-sized glass doors (such as those with a single width exceeding 3 meters), meeting the design requirements of large openings.

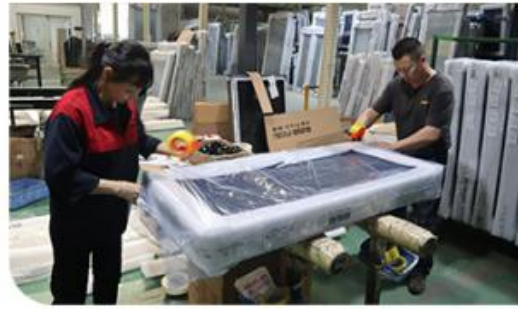

Barrier-free passage: The sliding opening method does not occupy indoor or outdoor space and is suitable for small-sized apartments or areas that require frequent passage (such as balconies and terraces).

Product Parameters:

SERIES	150 serie sliding door
BRAND	Eloyd
PROFILE	6063# T5 aluminum alloy profiles
THICKNESS	3.0mm/8.0mm Thick Aluminium
GLASS	5+22A+5mm Double Clear Tempered Glass
HARDWARE	BOGO Lock & Handle
SURFACE TREATMENT	Powder Coating, Anodized

Packing and shipping

TRANSPORTATION

Logistics AndTransportation

Clear and trackable logistics process

ELOYD understand the importance of timely and safe delivery. That's why we offer an efficient logistics service, letting you track your order anytime.

Comprehensive door-to-door transportation service

We offer a complete door-to-door transportation service from our factory to your doorstep, aiming to provide you with a pleasant shopping experience.

Packing and delivery process

1. Product Packaging 2. Product Sorting 3. Dispatch 4. Confirmation of Goods 5. Logistics Unloading 6. Buyer Receiving
