Product Description

Architectural Aluminum Casement Window with Custom Design Options

Extended Product Details:

This architectural-grade aluminum casement window is the **perfect choice for designers, architects, and developers** seeking flexibility and performance. Its reinforced frame provides outstanding **structural integrity**, making it suitable for large openings without compromising stability.

The window integrates a **polyamide thermal break system**, which prevents thermal bridging and maintains comfortable indoor temperatures. Paired with **double or triple glazing**, it significantly reduces energy consumption.

Designed for safety, it features **multi-point locking, reinforced corners, and anti-theft hinges** meeting strict international security standards. Weather-resistant seals enhance **airtightness and water resistance**, ensuring durability in diverse climates.

A wide selection of **custom options** is available, including **glass types, handle designs, surface textures, and RAL colors**. This makes it versatile for both **residential luxury homes and large-scale commercial projects**.

With its blend of **engineering excellence and design versatility**, this window is an investment in both performance and long-term value.

50,000²
Production Area
 Professional enterprise of aluminum, wood clad aluminum and upvc windows and doors.
